VOLUNTEERING

- Learning Ambassador (April 2023 - Present)

I volunteered as a Learning Ambassador program for the all-female cohort 14 at ALX.

By supporting and guiding learners who are new to the field, I strive to create an inclusive environment where everyone feels empowered to contribute their unique talents and perspectives.

ABOUT ME

As a graduating student from the ALX Software Engineering Program and a former architect, I bring a unique perspective to the world of software development. My programming skills are strong, and I am constantly seeking new challenges and opportunities to learn and grow as a Software Developer.

In addition to my software development skills, I also have a strong background in graphic design. I have a passion for creating visually appealing designs. I am well-versed in using design software.

Moreover, my collaborative nature and strong problem-solving skills allow me to work effectively in teams and tackle complex projects with ease. I am excited to bring my diverse skill set and creative approach to contribute to the field of web development and graphic design.
